CATALAN EXHIBITORS
MWC 2024

26-29 February 2024

Generalitat de Catalunya
Government of Catalonia

The Mobile World Congress and Catalonia form a successful binomial

The capital of Catalonia, Barcelona, is one of the most highly regarded cities for hosting large events. But we can offer much more than the above. In historical terms, we're one of the industrial engines of southern Europe and we're characterized by an entrepreneurial culture open to the world, with a society that's traditionally embraced innovation and progress. Furthermore, Catalonia is transforming its productive system under digital and green criteria, positioning itself at the forefront of sectors with great strategic value.

We're a country brimming with future opportunities for people willing to undertake new projects. A center of attraction for multi-disciplinary talent, with a powerful research and innovation ecosystem and a strategic geographical location. In recent years, this has enabled us to become a point of reference for the creation of startups in the technological field.

In this regard, we boast 140 international technological hubs, with a major presence of deep tech technologies chiefly linked to the development of AI projects, blockchain and robotics. Similarly, 71% of the 2,100-plus startups in our country operate with advanced tools such as big data, AI, automation and immersive technologies. And this innovative fabric is expected to expand in the coming years.

In turn, the Mobile World Congress has become a highly powerful asset in the technological and digital ecosystem of Catalonia, helping to attract highly innovative investments. Its presence enhances our international standing and energizes our productive ecosystem. This becomes even more evident during the Congress itself, with a growing presence of Catalan companies.

Catalonia is the best possible setting for the Mobile World Congress. And the Mobile World Congress is an ideal event for Catalonia. Enjoy Catalonia and the largest technology and mobility congress in the world. Capitalize on the future opportunities on offer.

Roger Torrent i Ramió
Minister for Business and Labour

Sectors

Lens / Optic / Camera / Liquid
Crystal / Artificial Vision / Repeater /
SDR / Coverage Enhancer

AD TELECOM is introducing an innovative breakthrough in optic technology with configurable liquid crystal lenses. This new product allows image zooming and focusing without the need for moving mechanical elements. Examples of its use in microscopes, surveillance cameras, and artificial vision systems are showcased, with a particular focus of its use in a forest fire detection system using very inexpensive cameras.

In addition, the updated catalog of coverage amplifiers for tetra networks and mobile telephony with SDR technology is presented. These devices can be reconfigured and monitored remotely.

We are a software development company dedicated to crafting tools and solutions tailored for businesses. At the heart of our expertise lies data, and our product range addresses every facet of the data lifecycle.

Through our Data Management solutions, companies consolidate their efforts and unlock value through streamlined management. Furthermore, integrated AI algorithms offer analytical insights that surpass human capabilities. On the other hand, our Business Intelligence products offer a comprehensive perspective on their operations, empowering informed decision-making.

SATELIOT's NTN Coverage extension for
MNOs and MVNOs.

Sateliot is launching the first LEO satellite
constellation based on the 5G standard,
allowing commercial, unmodified cellular
IoT devices to connect from space. This is
the first time in history that cellular terrestrial
telecom is merging seamlessly with satellite
connectivity, and Sateliot is leading this
revolution. Sateliot's cost-effective technology
and the possibility to use commercial low-
cost devices to connect to satellite opens
infinite possibilities on the untapped market
of massive IoT in remote areas, and it
is in line with Sateliot's mission to make
IoT connectivity available to everybody
everywhere.

Taurus Group has manufactured home appliances since 1962. As a global and modern company, we focus on adapting our products to new technologies and consumer habits.

Like our consumers, we care about ecology and the planet, which is why we have introduced Taurus Renovables, our division specializing in photovoltaic solar installations that serve both households and industries.

We would like to present our new self-installable solar panels, flexible panels that can be placed on balconies and gardens, allowing for the customization of power according to each customer's needs. A perfect solution for those users who do not have a roof space for conventional solar panels.

Discover with Taurus Group and Taurus Renovables the future of home energy consumption that respects the planet.

Virtual Reality / Augmented Reality / VR / AR / Mixed Reality / MR / Industry 4.0 / Immersive Technologies / Digital Transformation / Smart Industries / Energy / Mining / Ports / Edtech / Metaverse / Safety / Industrial / AR/VR / Spatial Computing / Training

We assist industrial companies in enhancing their internal training using virtual reality, aiming to transform unsafe behaviors towards a more efficient and secure work environment. This behavioral change aids in reducing accidents, improving industrial safety ratios, minimizing material expenses and machinery maintenance, as well as reducing training times.

Since 2013, our focus has been on recreating hazardous or maintenance procedures in virtual reality. Operators undergo these experiences in a secure environment, allowing for mistakes without physical consequences. Presently, we support companies such as ABB, Goodyear, Mercedes Benz Spain, EDP Spain, Enexis, among many others.

BikeOn

bikeonsafety.com

Business Type: B2B2C
Hardware/Software: Software
Industries: Mobility

Booth 8.1B34.8B

BikeOn provides the first safety solution for cyclists sharing their location in real time to GPS navigators, connected vehicles and V2X platforms, The solution to reduce accidents and improve bicycle mobility.

Bumerang

youbumerang.com

Business Type: B2B2C
Hardware/Software: Hardware/Software
Industries: Circular Economy

Booth 8.1B34.7A

Reusable packaging system for takeaway food and drinks.

Circulartrust

circulartrust.eu

Business Type: B2B
Hardware/Software: Software
Industries: Greentech

Booth 8.1B35.2B

CircularTrust is a collaborative ecosystem based on blockchain technology that allows the creation of digital product passports and complete traceability of value chains.

Escandalo App

escandaloapp.com

Business Type: B2C
Hardware/Software: Software
Industries: Social Media

Booth 8.1B35.1A

Discover, organize and tag the best restaurants based on your friends' recommendations.

Folgrid

folgrid.com

Business Type: B2B2C
Hardware/Software: Hardware
Industries: Agrotech / Energy

Booth 8.1B34.2B

Folgrid drives the solar-agricultural revolution with innovative solutions for communities and farmers, seamlessly integrating solar energy into agriculture.

Footprint Mappa

footprintmappa.com

Business Type: B2B
Hardware/Software: Software
Industries: Automotive

Booth 8.1B34.4B

Mappa is a SaaS platform designed to manage the carbon footprint of automotive parts / components under ISO 14067 & GHG Protocol.

Heecap

heecap.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Healthcare

Booth 8.1B35.8A

Heecap is a non invasive electrostimulation system to prevent and treat respiratory muscle atrophy of patients under mechanical ventilation supports in intensive care units.

Hello.app

hello.app

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Data storage

Booth 8.1B34.3B

We are going to pay you money in exchange for using your phone's local storage space.

Imaz

maxsens.es

Business Type: B2B2C
Hardware/Software: Hardware/Software
Industries: Healthcare

Booth 8.1B34.1A

Maxsens is a biomedical sensor-equipped wearable with AI-driven image processing platform for remote health monitoring. IMAZ is revolutionizing healthcare for seniors, chronic patients, and beyond, exploring applications in sports, well-being, and gaming.

Immersium Studio

immersiumstudio.com

Business Type: B2B
Hardware/Software: Software
Industries: Education/Healthcare

Booth 8.1B35.3B

At **Immersium Studio** we design the next generation of Immersive Learning experiences to improve soft and hard skills both in corporations and educational institutions.

Improfit

improfit.ai

Business Type: B2B
Hardware/Software: Software
Industries: Healthcare / Computer vision

Stand B25

Improfit.ai has developed a B2B SaaS solution that digitizes medical practitioners and therpaists' operations. Along with planification, execution and monitoring modules, healthcare professionals can asses and record all interactions with patients and their rehab process with Computer Vision.

Inari

inari.io

Business Type: B2B
Hardware/Software: Software
Industries: Insurtech

Booth 8.1B34.8A

Inari develops advanced technology for insurance and reinsurance. Our core infrastructure enhances operational efficiency and connectivity, offering fully managed platforms with end-to-end solutions, incorporating smart automation for optimal user experience.

Indaru

indaru.com

Business Type: B2B
Hardware/Software: Software
Industries: Marketing / Machine Learning

Booth 8.1B34.2A

Indaru, an independent media and data advisory firm, specializes in enhancing marketing performance through media consulting, audits, and data analytics. Indaru's AITA® (Artificial Intelligence Tool for Advertisers) employs machine learning for predictive marketing mix models, boosting ROI and optimization.

InfluApp

influapp.es

Business Type: B2B/B2C
Hardware/Software: Hardware/Software
Industries: Web3 Loyalty rewards / Influencer marketing

Booth 8.1B34.7B

Influapp is a startup offering a revolution in payment systems, transforming the interaction between brands and businesses with their customers, rewarding their loyalty in the digital environment.

Insectius

insectius.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Agrotech / Biotech

Stand B25

Insectius is a biotech start-up dedicated to the research and production of insects, one of the most sustainable proteins on the planet. With a technological approach, we automate and make our farm processes more efficient through software, AI and robotics.

Kreios Space

kreiosspace.com

Business Type: B2B
Hardware/Software: Hardware
Industries: Space

Booth 8.1B35.5A

Kreios develops an electrical thruster for satellites in Very Low Earth Orbits.

Lernmi

lernmi.com

Business Type: B2B
Hardware/Software: Software
Industries: EdTech

Booth 8.1B34.5A

Lernmi enhances productivity and workplace environment by developing communication skills. Boost written communication, prepare for challenging conversations with role plays, and receive continuous support from LAIa, our AI-Generative personal mentor.

Loop Diagnostics

loopdx.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Healthcare

Booth 8.1B35.5B

Loop Diagnostics is a biotech company that develops a diagnostic tool for sepsis, using an in vitro cellular immunoassay to detect it within the first hour of bloodstream infection. Their goal is to reduce disease severity and mortality rates through timely and effective treatment.

Luracare

luracare.es

Business Type: B2B2C
Hardware/Software: Software
Industries: Healthcare

Booth 8.1B34.6A

Luracare provides home dental service to all those people who cannot move to a dental clinic, through its own home diagnostic technology. We're the leading company in Spain and expanding to Italy and UK.

MiMark

mimark.es

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Femtech/Healthcare/Diagnostics

Booth 8.1B35.4B

MiMARK is a women's health company developing innovative in vitro diagnostic solutions to improve the management of gynecological diseases. We envision the gynecological fluid as the new liquid biopsy in gynecology. Our first objective is to improve Endometrial Cancer diagnosis.

Mumbler

mumbler.io

Business Type: B2B2C
Hardware/Software: Software
Industries: Media & Entertainment

Booth 8.1B35.7A

Mumbler is the all-in-one tool to host, distribute and monetize your podcasts & audio content.

Neatsight

neatsight.eu

Business Type: B2B
Hardware/Software: Software
Industries: AI Computer Vision / Edge Computing / Retail Media

Stand B25

Neatsight provides an edge-cloud SaaS platform designed for the effortless building, deployment, and monitoring of fast and precise computer vision AI solutions, tailored for low-end IoT devices. This enhances industrial operational efficiency while maintaining a strong commitment to privacy.

Neutroon

neutroon.com

Business Type: B2B
Hardware/Software: Software
Industries: Telcoms / IT

Booth 8.1B34.3A

Neutrooon is a SaaS platform to simplify and monetize 5G in enteprises. It centralizes the management of multiple multi-vendor 5G networks across multiple customers, and provides a powerful API layer to easily integrate 3rd party apps.

Opground

opground.com

Business Type: B2B
Hardware/Software: Software
Industries: HRtech / Edtech / Ai

Booth 8.1B35.7B

Opground is the first unbiased AI-based system where tech talent is interviewed by hundreds of companies at once through a single 30min conversation with our AI, and companies get the most tailored talent in <5 minutes.

Pack2Earth

pack2earth.eco

Business Type: B2B
Hardware/Software: -
Industries: Sustainable materials

Booth 8.1B34.1B

Impact start-up specialised in sustainable, biobased materials to substitute contaminating plastic in packaging and other uses. Our flexible film and injection materials compost at ambient temperature and are the first suitable for long-life dry to liquid products.

Pickletech

pickletech.eu

Business Type: B2B
Hardware/Software: Software
Industries: Healthtech / AI

Booth 8.1B35.4A

At **PickleTech** we develop multimodal Artificial Intelligence solutions to assist decisions in Healthcare, Life Sciences and DeepTech. We focus on developing machine learning systems to help solve challenges related to the triage, diagnosis and management of patients with worldwide diseases.

Qbeast

qbeast.io

Business Type: B2B
Hardware/Software: Software
Industries: Big Data / AI

Booth 8.1B34.4A

Data observability and lakehouse building tool for enhanced data management.

Quallakids

quallakids.com

Business Type: B2B
Hardware/Software: Software
Industries: Kids & Family

Booth 8.1B35.2A

Qualla Kids is the only mobile APP that, with a single click, allows the staff of schools, summer camps to recognise the parents or the authorised people to pick the children up, notifies the parents and keeps a register.

Tecfys

tecfys.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Fintech / Circular Economy

Booth 8.1B35.6A

B2B circular subscription platform for all the technology a company needs.

The Blue Box

thebluebox.ai

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Health / Biotech

Stand B25

Women lack reliable breast cancer (BC) screening methods, as 50% of BCs are detected in a late-stage. At The Blue Box, we've developed a radiation-free, pain-free, low-cost device detecting BC in urine with 88.33%.

Universalplastic

universalplastic.io

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Greentech

Booth 8.1B34.5B

Our groundbreaking Web3 App, **Universal Plastic®**, tackles the plastic crisis head-on by harnessing data management. As an Impact Unicorn, we're committed to generating over €1B net in social, human, and natural capital, fostering a responsible future through marine ecosystem regeneration and income opportunities for plastic waste collectors.

Vaivelogistics

vaivelogistics.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Smart cities & Mobility

Stand B25

Vaive Logistics is committed to the development and commercialisation of autonomous delivery vehicles for last-mile urban logistics. Vaive seeks to help businesses optimise their operations by offering a new wave of delivery services with the use of its robotic technology.

Vitala

vitala.tech

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Biotech

Booth 8.1B35.3A

Vitala provides drug testing services in pre-clinical phases of Mitochondrial Activity, using in-vitro and in-vivo models, answering questions of toxicity, effectiveness, and mechanism of action, with Biotech and Pharma companies as clients in Spain and around the world.

Vottun

vottun.com

Business Type: B2B
Hardware/Software: Software
Industries: Web3

Booth 8.1B35.6B

Vottun is a platform that offers tools, APIs and ready-to-use templates that allow developers or companies to create Web3 solutions in an easy way.

Welme App

welme.tv

Business Type: B2C
Hardware/Software: Software
Industries: Gaming

Booth 8.1B35.1B

We are the tool that allows streamers to monetize video game games by letting their fans participate. We convert hours of content consumption into experiences where the viewer is the protagonist, while the streamer monetizes.

Workdeck
workdeck.com

Business Type: B2B
Hardware/Software: Software
Industries: Enterprise Software

Booth 8.1B34.6B

Workdeck is an enterprise SuperApp for integrated work management, powered by Adaptive Artificial Intelligence.

Zerod
zerod.io

Business Type: B2B
Hardware/Software: Software
Industries: Cybersecurity

Booth 8.1B35.8B

Our advanced platform provides fast penetration testing and consultancy services, guided by cybersecurity experts. We drive innovation through elite ethical hacking and top scanning tools, transforming potential vulnerabilities into growth opportunities. Zerod revolutionizes cybersecurity with unmatched agility, quality, and availability.

#4YFN24

Abzu
abzu.ai

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Digital Health

Artificial Intelligence (AI) solutions for Pharma and Biotech, accelerating drug discovery and development through efficient data analysis, enhancing innovation in RNA therapeutics and personalized medicine.

Biel Glasses
bielglasses.com

Business Type: B2B/B2C
Hardware/Software: Hardware/Software
Industries: Medical Technology

Smart glasses for people with low vision (LV) that use Spatial Computing (Robotics, AI, and Mixed reality) to improve perception of obstacles and other mobility risks, increasing their personal autonomy.

Biosfer Teslab
biosferteslab.com

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Biotechnology

Advanced solutions in metabolomics by NMR for clinical diagnosis, scientific research, and personalized well-being. Liposcale test for the diagnosis and monitoring of cardiovascular diseases.

Bsure Medical
bsuremedical.com

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Biotechnology

Solutions to guarantee safe and knowledgeable use of implants for clinicians and implant users. First two products are 2 DNA tests to determine the risk of complications with fillers and breast implants.

Flomics Biotech
flomics.com

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Biotechnology

Multi-purpose liquid biopsy, capable of detecting cancer even before the first symptoms appear. The test combines genomics with machine learning, everything out of a blood sample.

Mefood Omics
mefood.io

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Digital Health

Personalised nutrition company that combines omics, Artificial Intelligence (AI) and big data to deliver tailored solutions that improve individual health and well-being.

Methinks
methinks.ai

Business Type: B2B
Hardware/Software: Software
Industries: Digital Health

A program to help predict strokes, providing decision support for life-saving treatment and reducing time to treatment.

Nanodecal
nanodecal.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Biotechnology

A rapid diagnostic test for detecting a respiratory superbug to prevent chronic infection.

Time is Brain
tibtimeisbrain.com

Business Type: B2B
Hardware/Software: Hardware/Software
Industries: Medical Technology

Stroke electrocardiogram that enables real-time identification and assessment of stroke patients, ultimately leading to faster treatment decisions and improved patient outcomes.

Trialing
trialing.org

Business Type: B2B
Hardware/Software: Software
Industries: Digital Health

Comprehensive digital health platform that assists physicians in efficiently finding the most suitable clinical trials for their patients, wherever they are.

Yasyt

yasyt.com

Business Type: B2B/B2C
Hardware/Software: Hardware/Software
Industries: Medtech / Digital Health

Assistive solutions using social robots, smart devices and IoT. It also offers a services line dedicated to AI, web3.0, and organizational transformation in health and social sector.

Zoundream

zoundream.com

Business Type: B2B/B2C
Hardware/Software: Software
Industries: Digital Health

Personalized system to identify and translate baby cries to detect pathologies and abnormal behavior.

ACCIÓ

Catalonia Trade & Investment

Catalonia Trade & Investment assists Catalan companies to increase their productivity, to support them in their challenges of transformation and global positioning and to reinforce the attraction of Catalonia as a destination for high value-added investments in order to increase the volume and strength of Catalan companies. These objectives have a positive impact on the growth of the economy and job creation

ACCIÓ functions

– Developing business competitiveness

– Encouraging the internationalization of Catalan firms,
  their expansion and consolidation

– Promoting Catalonia as a business-friendly location

– Encouraging R&D and business innovation, as well as technology transfer

– Fomenting the creation of technological and high-growth potential start-ups

To promote internationalization and innovation, ACCIÓ counts on a network of 40 Trade and Investment Offices across the globe based at the main economic cities, operating in more than 100 markets. Our Trade and Investment Offices provide Catalan business qualified support, insight, and advice in international trade and investment.

Trade and Investment Offices closely monitor market trends and analyze potential risks. Services provided are tailor-made depending on specific company needs and level of presence in chosen markets, from creating demand to giving support in productive investment and logistics:

– Market research

– Search for marketing channels: distributors, agents, customers, etc.

– Search for supply chains: suppliers, manufacturers, etc.

– Search for trade and technological strategic alliances

– Setting up: business location, legal, and labor advice, partnership opportunities, etc.

– Missions

– Contact follow-ups and business networking

– Recruitment of qualified staff

– International public procurement
